

AMBICON 2025

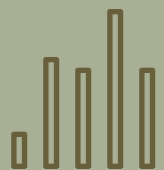

Conference Themes

Next-Gen Biochemistry: Bridging Science, Diagnostics & Education

AMBICON 2025 will spotlight the expanding frontiers and evolving roles of medical biochemists through a carefully curated set of thematic tracks:

 **PSG IMSR, Coimbatore.**
 **12 to 14 December, 2025.**

 Next-Generation Sequencing	Emerging genomic technologies in diagnostics and research
 Mass Spectrometry	Advances in analytical platforms transforming clinical biochemistry
 Metabolomics	Exploring the clinical and translational relevance of metabolic profiling
 Medical Education	Pedagogical innovations, evolving roles of MD Biochemists, and academic leadership
 Laboratory Management & Quality Systems	Best practices in clinical biochemistry, automation, and lab leadership
